

Woodura Planks 3.0

– super strong and more sustainable

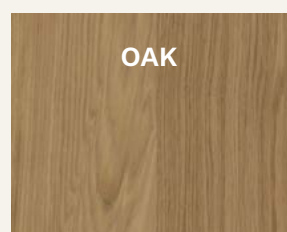

Durable and dent-resistant Scandinavian-designed hardened wood floors that feature the patented Woodura™ technology from Välinge Innovation, making the floors three times stronger. The technology also ensures these real wood floors are produced in a way that uses raw materials optimally. Together with the leakproof 5G Dry™ locking system and the moisture-resistant Välinge Compositek wood core, these floors can last for generations.

REAL WOOD

“ We have developed these products with the customers’ evolving needs in mind. We’re always pushing ourselves to stay ahead of the curve and continue to focus on innovation and sustainability.”

Hannes Lindblom,
Head of Product
Management at Bjelin

SURFACES

Pro matt lacquer

The new pro matt lacquer surface treatment is extremely durable and is ideal for busy spaces within hotels, shops, offices and restaurants – or a heavily trafficked area of a home. The pro matt lacquer finish makes the floors easy to maintain while protecting them from stains.

Brushed lacquer

With a similar appearance to oiled floors but with the benefit of the lacquer, which makes these floors easier to maintain. We recommend brushed lacquered surfaces in all areas of the home.

Hard wax oil

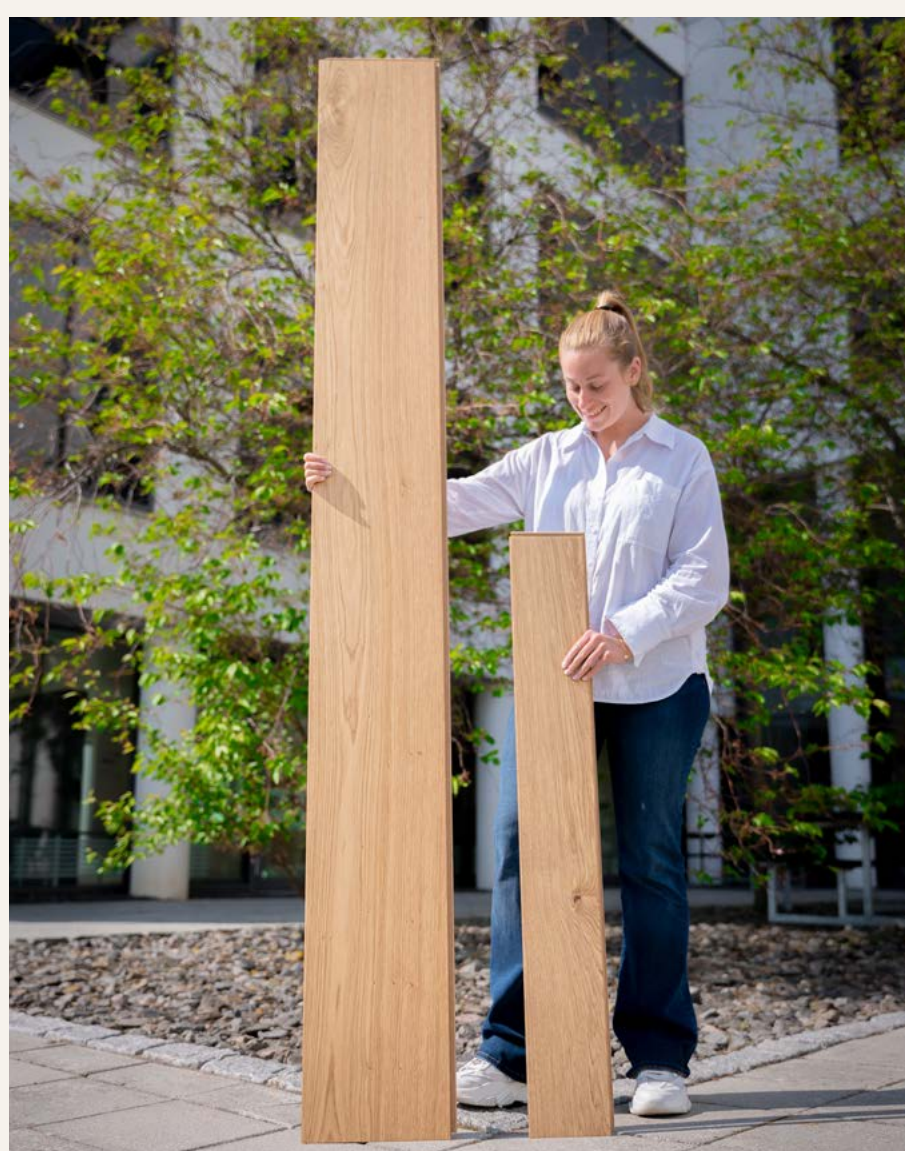

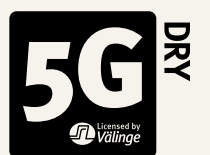

This surface has a natural structure that provides a wonderful feeling of wood. Due to the required maintenance, we recommend oiled wooden floors in bedrooms and living rooms where there is less heavy traffic. The floors work equally well in busier areas but will require more care in those spaces.

FORMATS

Plank sizes: S, M, L, XL and XXL.

EASY INSTALLATION

The leakproof 5G Dry floor locking system is well-known for providing the easiest, fastest, and most reliable installation. No tools, glue or nails are needed – just click the pieces together.
