to install with 5G™**100%****REAL WOOD**

This innovative herringbone flooring is a contemporary take on a timeless classic – designed to impress with its unmatched durability. Drawing inspiration from Scandinavian nature, each piece is meticulously crafted to blend seamlessly into modern lifestyles while making a sustainable choice.

The large panel format and clean Select grading ensure a cohesive and modern aesthetic, further enhanced by the low-maintenance pro matt lacquer. With high-tech features like the Woodura™ surface technology and 5G installation system, these floors boast super strength and easy installation.

“*Aesthetically, this is a design product combining traditional elegance with a contemporary flair, and functionally, it provides a much more durable alternative.*”

Fredrik Alfredsson, Bjelin's Global Head of Sales

FORMAT

At 91 mm x 546 mm, these panels surpass traditional parquet herringbone sizes, offering a modern feel.

GRADING

Available in a clean and harmonious Select grading with few visible knots.

SURFACE TREATMENT

A pro matt lacquer adds to this floor's durability, making it ideal for both commercial and residential settings while ensuring easy maintenance.

EASY INSTALLATION

The 5G floor locking system is known for providing an easy, fast, and reliable installation. No tools, glue or nails are needed. Simply click the pieces together.

COLOURS

Influenced by Scandinavian nature, the Woodura Herringbone 2.0 flooring is offered in three stunning colours.

Natural – authentic and timeless.

Misty White – versatile and modern.

Earth Grey – serene and elegant.
