

Bjelin Floor protection
cardboard MX 75

For temporary protection of all types of floors, such as parquet flooring, vinyl flooring, textile carpets and ceramics etc.

PRODUCT FEATURES

- The floor protection cardboard is made from liquid packaging board, the same material used for liquid cartons, ensuring it does not allow liquids to pass through.
- Durable and tear-resistant. The liquid packaging board has a very high wear resistance and can withstand a lot of wear and tear.
- It allows steam to pass through, meaning it can be left on the floor at all times without the risk of mould forming between the protective layer and the substrate, or damage to surfaces like parquet floors caused by trapped moisture.
- 100% recyclable. Contains no plastics. Made of liquid packaging board from environmentally certified mills.

- Lightweight and easy to roll out, this floor protector covers 75 m² with minimal weight. Save on both transport costs and physical effort.
- Cost-effective floor protection that can cover large areas over a long period of time.
- Produced and manufactured in Sweden.
- The liquid packaging board is sourced from Swedish mills, with the conversion process also taking place in Sweden.

Note, if tape is used to fix the floor protection cardboard, never tape directly against parquet flooring or other materials that can be damaged by the tape.

General properties	
Material	Cellulose fibre
Thickness (mm)	0,4
Width (mm)	1320
Surface weight (g/m ²)	200 +/- 20
Roll size (m ²)	75
Article number	20404
EAN-code	7350037330957
Weight per roll (kg)	15 +/- 1,5
Weight per m ² (g)	200 +/- 20
Rolls per pallet	40
Square meter per pallet (m ²)	3000
Pallet width (mm)	900
Pallet length (mm)	1200 - 1500
Pallet height (mm)	1200
Pallet weight (kg)	622
